## CIS 3000

### MONEY COUNTER SCALE

Quick and Easy

The CIS 3000 money counter is a quick and easy way to count your cash and coins. For bills, simply select the denomination and place the bills on the scale's money hook. For coins, select the type of coin and place them into the provided coin cup for a quick and reliable tally. The CIS 3000 keeps a running tab on your currency and each count shows up on the large back-lit LCD display. The optional thermal printer offers a hard copy for your records.

Use coin cup to count your change

Stack your bills on the money hook to get an accurate count

Use the optional printer for a hard copy record
